I am a highly motivated, resourceful and skilled Software Developer with 4.5 years of experience, seeking a challenging position to utilize my strong software engineering skills, excellent debugging abilities, and passion for innovative problem solving. Committed to deliver high-quality solutions in collaborative environments and staying abreast of industry trends.

TECHNICAL SKILLS

Backend: Java, SpringBoot, Microservices, Hibernate, Spring Data JPA, Kafka, JUnit, Mockito, Reactive Programming, GCP pub/sub, Load Testing with k8, python

Frontend: JavaScript, ReactJS, HTML5, CSS

Developer Tools: IntelliJ Idea, Eclipse, Postman, Offset Explorer, Windsurf, GitLab, Jenkins, Docker, Maven, Git, Google Cloud Platform, Grafana, Kibana, Snyk, VS Code

Database: Postgres, MongoDB, Oracle SQL, MySQL, GCS Firestore DB

Data Structures and Algorithm and problem solving

Collaborative Communication and a Team Player with good interpersonal skills and communication.

EXPERIENCE

Java Backend Developer

Feb 2025 – Present

Lowe's Companies Inc.

Bangalore, KA

- **Actively developing and enhancing** a part of a complex **Inventory Management System** by designing and building **scalable microservices** using **Java, Spring Boot, ReactJS, SQL and NoSQL**, improving system efficiency and supporting critical order transactions.
- **Implementing and integrating** new features, ensuring smooth **asynchronous** interaction with upstream and downstream services while adhering to industry-standard **design patterns**.
- Enhancing code reliability and performance by writing **unit tests with 80%+ coverage**, conducting **load testing** and proactively **refactoring legacy and vulnerable code**.
- Driving **Agile** practices through active participation in **sprint planning, code reviews, deployments and process optimization for continuous delivery**.
- **Collaborating cross-functionally** to **analyze** requirements, **design** system architectures, **conduct scrum** ceremonies, and deliver timely **production support** with quick resolution of reported issues.
- **Documenting large-scale application workflows**, identifying and addressing **technical debt** and contributing to the overall stability and maintainability of the platform.

Java Backend Developer

July 2022 – Feb 2025

Tata Consultancy Services

Bangalore, KA

- Worked on the development and enhancement of a comprehensive location service for **Macy's**, utilizing **Java with Spring-boot** to deliver a flawless and feature-rich user experience for a large consumer base.
- Developed **RESTful APIs, critical business logic, microservices** ensuring high performance and reliability through test-driven development practices.
- Developed client specified solutions with well documented classes and methods, adhering to **design patterns and OOP principles**.

Frontend Developer

Aug. 2021 – June 2022

Tata Consultancy Services

Bangalore, KA

- Designed and developed a fast and captivating user interface for **Apple** utilizing **JavaScript and ReactJS** that inclined with customer requirements and expectations.
- Actively participated in a Proof Of Concept project and showcased **problem-solving abilities and analytical skills** by designing and implementing **robust, high performance reusable software modules**.
- Developed a file observer system using python and watchdog library for tracking updates in directories.

PROJECTS

KChat | *ReactJS, Express JS, Tailwind CSS, Daisy UI, Socket.io, Zustand, MongoDB*

June 2024 – Present

- Developed a **MERN** stack web application using Javascript and ExpressJs serving a REST API with React as the frontend.
- Implemented **JWT** based authentication for user privacy and used **socket.io** for instant message updates for users.
- Implemented reusable dynamic components and used **Zustand** for global state management.

ACHIEVEMENTS

- 4* coder at **CodeChef** and 3* coder at **LeetCode** (solved 500+ problems)
- TCS Top Coders Qualifier (2023) Global rank – **79**

EDUCATION

West Bengal University of Technology

Bachelor of Technology in Computer Science and Engineering

Purulia, WB

June 2017 – July 2021
